

ANISH SHANKAR

(+91) 9113362397 | anishgaya1997@gmail.com | Bengaluru, Karnataka

PROFESSIONAL SUMMARY

Product Manager transitioning from engineering with 4+ years of development experience and AIRTRIBE AI First PM certification. Skilled in product strategy, roadmap planning, feature prioritization, user journey optimization, and data-driven decision-making, with a proven ability to translate technical complexity into business value, identify user pain points, and drive retention, engagement, and conversion through cross-functional collaboration.

PROFESSIONAL EXPERIENCE

Professional Software Engineer, Volvo Group India (Apr 2022 – Present)

- Analyzed end-to-end user journeys and engineering workflows for **1000+ global users**, identified process inefficiencies through data analysis and stakeholder interviews, and recommended feature enhancements that improved operational efficiency by **20%**.
- Collaborated with engineering, business, and cross-functional teams to translate user needs and business requirements into scalable product solutions, delivering RESTful APIs that supported critical engineering workflows for **200+ users** globally.
- Prioritized product backlogs based on user impact, business value, and technical feasibility, while leading root-cause analysis of production issues to improve system reliability and reduce issue resolution time by **40%**.
- Leveraged SQL and data analysis to monitor product KPIs, identify user behavior patterns, and generate insights that informed feature prioritization, workflow optimization, and adoption improvement initiatives.

Project Engineer, WIPRO Technologies (Jun 2021 – Mar 2022)

- Contributed to Multi-Factor Authentication product implementation managed Identity Provider requirements and certificates for critical applications
- Gained hands-on experience with fraud detection workflows and security processes, evaluated product features using Nielsen's heuristics, participated in product roadmap discussions

EDUCATION & CERTIFICATIONS

- AIRTRIBE AI First Product Management certification (March 2026-Present)
- B. Tech Computer Science & Communication, KIIT University (2017–2021) | CGPA: 7.9/10

CORE COMPETENCIES

- Product Management: Product roadmap development, feature prioritization, user experience optimization, competitive analysis, market research, product requirements, OKR definition, growth strategies, retention & conversion optimization, Agile methodologies
- Data & Analytics: SQL queries, Excel analysis, KPI tracking, funnel analysis, user behavior analysis, A/B testing, data-driven decision making, metrics definition
- Technical Acumen: RESTful APIs, microservices, database design, API documentation (Postman), requirements specification, GitHub

PRODUCT CASE STUDIES & MARKET ANALYSIS

- Zomato: Defined product roadmap and OKRs, analyzed end-to-end user journey (discovery → order → delivery → retention), identified UX gaps, conversion optimization and AOV expansion
- Amazon: Conducted competitive analysis of e-commerce discovery-to-checkout journey across web and mobile, identified workflow bottlenecks and UX gaps, recommended product requirements for conversion rate optimization
- X (Twitter): Mapped funnel analysis (AARRR), analyzed engagement metrics and user behavior patterns to identify retention levers and growth opportunities, evaluated competitive positioning and market research

AWARDS

- Volvo Group: SPOT AWARD (Task ownership & leadership) | BEST EMPLOYEE CREW AWARD (Team collaboration) | WIPRO: STAR AWARD (Dedication & impact)
